LAYING INSTRUCTIONS

TILES FIXING INSTRUCTIONS

1. All the tiles must be checked prior to fixing for quality, batch no. and choice.
2. Plaster the surface of the floor to be tiled and allow curing atleast two weeks before tiling.
3. While fixing pick tiles from various boxes alternatively, lay them in the desired patterns and make sure that they give an acceptable blend of colour and design. Please note that shade variation is inherent in manufacturing tiles.
4. For fixing tiles we recommend to use the fixing adhesives or equivalent product for the best result.
5. For fixing tiles in floor using conventional method, we suggest the following laying instruction:  
A: use cement and sand mortar in the ratio 1:4. Add water to create a consistent paste.  
B: Apply 20-25MM of bedding materials over the floor area of 1.0SQM at a time.  
C: Apply a thin coat of the slurry on the back of the tile to ensure proper and full bedding. Press gently for even adherence of the tiles with surface.
- Do not use any heavy materials like iron or hammer to press tile.
- 6: For fixing the tools on Dado, we recommend the use of adhesive or equivalent materials.
- 7: Allow 3-4 days of bed curing after laying tiles and later fill the joints with grout.
- 8: We recommend maintaining a joint gap of 1-2mm between the tiles to allow possible thermal expansion at later stage.
- 9: Please note that company will not accept any liability in case of any problems arising out of adherence of above fixing instructions.

**DISCLAIMER** : reserves the right to delete and amend either totally or partially, any of the colours, shapes, sizes, references and other technical specifications contained in the catalogue at any time. The colours shown in this catalogue are purely illustrative and limited to printing process. Please refer actual samples before final selection. The details of colours, sizes and references should be verified for photography errors. SHADE & SIZE VARIATIONS are inherent characteristics of ceramics. NO COMPLAINTS SHALL BE ENTERTAINED ON TILES ALREADY/FIXED.

NOTES :

- \* All technical specifications in this catalogue are for premium grade materials only.
- \* SHADE/SIZE VARIATION are inherent characteristics to ceramics. Certain products purposely have variations that are the parts of designs and process. The same have been indicated.
- \* It is recommended to blend tiles by mixing tiles from various boxes and check for natural hue before fixing.
- \* Company’s liability is also limited to the material supplied by the company; no other claim is entertained under any circumstances.
- \* No complaints shall be entertained regarding the decoration on tiles.
